

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

STATISTICAL ABSTRACT

OF THE
UNITED STATES.

1894.

SEVENTEENTH NUMBER.

Finance, Mining, Commerce, Immigration, Tonnage,
the Postal Service, Public Lands, Population,
Education, Railroads, Agriculture,
and Manufacture.

PREPARED BY THE BUREAU OF STATISTICS UNDER THE DIRECTION
OF THE SECRETARY OF THE TREASURY.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1895.

TREASURY DEPARTMENT.
Document No. 1713
Office of Bureau of Statistics.

**TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D. C., December 3, 1894.**

SIR: I herewith transmit to the House of Representatives the seventeenth number of the Statistical Abstract, prepared by the Chief of the Bureau of Statistics.

Respectfully, yours,

J. G. CARLISLE, *Secretary.*

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

**TREASURY DEPARTMENT,
BUREAU OF STATISTICS,
Washington, D. C. December 3, 1894.**

SIR: I have the honor to submit to you for transmission to Congress the seventeenth issue of the Statistical Abstract of the United States. While retaining the essential features of the earlier issues, I have deemed it advisable to extend its scope and to modify it in many important details. This has resulted in a more complete compilation and a better arrangement of subjects treated. The field to be covered is so wide and the material available so imperfect that a single publication of this kind can cover only a small part of what would naturally find place in a full statistical abstract. I believe that this issue will be found of higher utility to the general public than previous numbers. I would respectfully recommend that a small charge be made for this volume, merely covering the cost of printing. The demand for it made upon Congress and this Bureau has become so large that the edition provided for is quite insufficient. It is impossible, under a free distribution, to make a just discrimination among applicants for copies, and a small charge would insure the placing of the edition in the hands of those who have an actual need for it. Such a system could work no injury to anyone, and it would relieve the Bureau of the delicate task of passing upon the claims of individuals to receive the book.

Respectfully, yours,

**WORTHINGTON C. FORD,
*Chief of Bureau.***

**HON. J. G. CARLISLE,
*Secretary of the Treasury.***

e The figures for Oklahoma Territory include the area of the former Public Land Strip, 5,738 square miles, or 3,672,320 acres.

f It is impossible to state whether the areas of the original States and the admitted States, as given in the table, embrace both land and water surface. The sources from which they were originally obtained is not known. The areas of the public-land States and Territories where the public-land surveys have been completed (Ohio, Indiana, Mississippi, Illinois, Alabama, Missouri, Arkansas, Michigan, Iowa, Wisconsin, and Kansas), are from actual surveys, and include the surfaces of all nonmeandered streams, lakes, etc., but exclude the areas of meandered waters. In the States and Territories where the public-land surveys are still in progress, the total area embraces both land and water surface, but the area of surveyed land does not include the surface of meandered waters.

a The cost of collecting the internal revenue embraces the following items: Salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine; salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses; paper for internal-revenue stamps, and expenses of detecting and punishing violations of internal-revenue laws.

b The expenses of collecting the revenue from customs includes all sums drawn from the appropriation made by Congress for that purpose. The money is expended for salaries, rents, labor in weighing, gauging, and measuring imported merchandise; revenue boatmen, repairs, and other expenses incident to rented buildings, stationery, and the traveling expenses of special agents, but does not include expenditures for revenue cutters, fuel, lights, water, furniture, janitors, etc., for buildings owned by the Government, nor expenditures for erecting new buildings, all of which are paid for from specific appropriations made for those purposes.

Looser, president of the Wine and Spirit Traders' Society of New York, and other well-informed persons, and the production for 1889 (opposite the year 1890) is that officially reported by the United States Census. (2) The consumption of domestic spirituous and malt liquors was obtained from reports of the Commissioner of Internal Revenue. (3) The consumption of imported liquors and wines was taken from records of the Bureau of Statistics. (4) Five so-called quart bottles of sparkling and still wines and vermouth are reckoned as equivalent to the gallon.

NOTE 1.—\$966,185.84 was paid as bounty from July 1, 1894, to August 28, 1894, when the bounty law was repealed. The sugar covered by these payments was produced in the fiscal years ending June 30, 1893, and June 30, 1894.

NOTE 2.—It will be observed that bounty payments by fiscal years do not correspond to the sugar produced each fiscal year for the reason that the payments on one year's product have, to a large extent, been made in a subsequent year.

The greatly increased mileage since 1880 is principally due to the fact that in 1881 the Western Union Telegraph Company absorbed by purchase all the lines of the American Union and the Atlantic and Pacific Telegraph companies, the former having previously in operation over 12,000 miles of line and the latter 8,706 miles. Capital stock of the Western Union, \$100,000,000.

The Western Union has exclusive contracts with several international cable companies, operating eight Atlantic cables, and guarantees 5 per cent annual dividends on the stock of the American Telegraph and Cable Company; amount, \$14,000,000.

Besides the above, there are new lines of telegraph which have complied with the United States telegraph act of 1866, and are operating wires with or without connection with railway companies.

The New York Mutual Telegraph Company, established in 1881, has about 8,000 miles of line, 60,000 miles of wire, 1,200 offices, and has extended its lines north and south, operating from Boston to Chicago, St. Louis, Washington, etc. Capital stock, \$2,500,000. This line is now leased and operated by the Western Union Telegraph Company, at a rental of 6 per cent per annum on the stock.

The Baltimore and Ohio Railroad Telegraph, having lines coextensive with its railway system and branches, besides many newly extended wires south and west,

constituting 6,711 miles of line and 54,087 miles of wire, was purchased in 1887 for \$5,000,000 by the Western Union Company, which now owns and operates it.

The lines of the American Rapid Telegraph Company, comprising 2,684 miles of poles and 20,370 miles of wire, and extending from Boston to New York, Washington, and Chicago, have been purchased by the Western Union Telegraph Company for \$550,000 in its stock at par. These lines have been operated by the Western Union Company under a lease since July 10, 1885, as a part of its system.

The Northwestern Telegraph Company owns 8,000 miles of wire. It is leased to the Western Union for ninety-nine years, which guarantees dividends (6 per cent after 1896) and interest on bonds.

The aggregate mileage of telegraph lines in the United States open for public business exceeds 210,000 miles, besides railways, Government, private, and telephonic lines; length not ascertainable.

NOTE BY MESSRS. MAUGER & AVERY.—This table exhibits, in a concise form, the prices of the three grades of a standard domestic fleece wool in the seaboard markets at the beginning of each quarter. In its present shape it is deemed to be comprehensive to all who are interested in wool. In the special features of character and condition, "Washed Ohio Fleece Wool" is less subject to variation than any other description, and thus is more a basis of value than any other class. Wool, owing to its wide variety, difference in character, and condition, liability to shrink in cleaning, is precluded from speculative operations which apply to products which may be dealt in as "futures." For these reasons the prices of wool are not liable to the same changes as cotton, wheat, etc.
